The Evaluation Meeting, Copenhagen, 10 December 2015

The evaluation session of the learning platform of the iHRM project aims at getting practical feedback on the online course, as well as giving participants of the pilot on-line course the opportunity to share and learn from colleagues from the different project partner countries.

IHRM Partners Meeting, Copenhagen, 11–12 December 2015

The partners discuss the changes that should be made to the M-learning programme as a result of the outcomes of the evaluation session of the M-learning pilot. The focus on the second day was on dissemination activities, specially preparing the final conference and the last partners meeting in Slovenia (April 2016).

Testing Phase of the Learning Platform

During the testing phase the participants from all six countries get to use the tools developed so far (four modules). They were asked for remarks and suggestions to improve the course.

Learning Manual

The Manual was created to support the development of the iHRM Learning Course. It engages the reader in a Learning Journey starting by laying down some fundamentals on the generational landscape and the ageing phenomena, proceeding to unfolding the implications of an age diverse workforce to the organisations, to finally describing practices to recruit, support and retain older workers. The contents of the Manual are available as part of the iHRM Learning Course.
